JULY

8TH JULY — MISSION BUSINESS – MISSION BUSINESS – ANOTHER GREAT DAY OF DEFENCE COLLABORATION

I recently had the pleasure of attending this year's Mission Business event at Prince William of Gloucester Barracks, and once again it proved to be a fantastic day.

A huge thank you to Paul Green, Debbie and everyone involved in organising the event. Bringing together the military, industry and local businesses in one place creates a brilliant opportunity to make new connections, share ideas and explore how we can all work together to support Defence while strengthening our local economy.

One of the things I enjoy most about Mission Business is that you never quite know who you're going to meet or what conversations you'll have. Every year I come away with new contacts, fresh ideas and a better understanding of the opportunities available for collaboration across the defence community.

Without doubt, the highlight of the day was listening to Helen Seymour, the RAF's first female Typhoon pilot. Her speech was nothing short of incredible.

Welcome to

MISSION BUSINESS

Event Partners

Event Sponsors

Hearing first-hand about the challenges she faced, the determination it took to succeed and the experiences she gained flying one of the world's most advanced fighter aircraft was both inspiring and genuinely fascinating. It was one of those presentations that keeps your attention from start to finish and leaves you thinking long after it's finished.

AUGUST

4TH AUGUST — LINCOLNSHIRE ARMY CADET VISIT SUPPORTING THE NEXT GENERATION OF TALENT – FANTASTIC DAY WITH LINCOLNSHIRE ARMY CADET FORCE

What a brilliant day!

those with years of experience, every one of them was a credit to the organisation.

After receiving an update on the Cadet Force and its exciting future, we headed out to the training areas where the fun really began. We had the opportunity to try the shotgun range, watch the cadets on the live firing ranges and visit a number of fieldcraft stands. One of the real highlights was seeing the cadets themselves confidently teaching and demonstrating their skills – their enthusiasm and professionalism were genuinely impressive.

It was also great to spend time networking with other Armed Forces-friendly businesses, all of whom share a passion for supporting the Cadet movement and helping develop the next generation.

A huge thank you to everyone at Lincolnshire Army Cadet Force for making us feel so welcome. It was a fantastic day and one that reminded us exactly why TMS is so proud to support the Cadet movement and the wider Armed Forces community.

We're already looking forward to the next visit!

Keith and Nick had the pleasure of representing TMS Support Solutions at the Lincolnshire Army Cadet Force Annual Camp, alongside other organisations that proudly support the Armed Forces community through the Employer Recognition Scheme.

With nearly 300 cadets on camp this year, it was fantastic to see so many young people challenging themselves, learning new skills and building confidence. From brand-new cadets attending their first camp to

16TH-17TH SEPTEMBER — DVD EVENT

TMS Makes a Strong Impression at DVD 2026

TMS Support Solutions was delighted to exhibit at **Defence Vehicle Dynamics (DVD) 2026 at Millbrook**, and we can honestly say it was an exceptional event for the TMS team.

With a full TMS team on the stand throughout the show, we were able to showcase the breadth of our capabilities, meet with existing customers and engage with a host of new organisations from across the defence sector. The stand provided a great focal point for conversations, with members of the team busy throughout the event discussing current programmes, emerging requirements and opportunities to support future activity.

DVD felt particularly busy this year, with a real sense of energy across the event. The level of engagement from visitors was extremely encouraging and we held numerous meetings with both current and prospective clients, creating some excellent conversations and a number of exciting opportunities for the future.

The event also gave us an opportunity to demonstrate the depth of expertise within TMS, from Integrated Logistic Support and supportability engineering

through to technical documentation, training, safety and environmental engineering and digital transformation. Having the wider TMS team on hand meant we could bring the right expertise into conversations and demonstrate the practical experience we can offer our customers.

Most importantly, we were proud of the presence TMS made at DVD. The team represented the company exceptionally well, creating a professional, welcoming and engaging stand that reflected who we are as a business and the relationships we work hard to build with our customers and industry partners.

We came away from Millbrook extremely pleased with the success of the show. The quality of the conversations, the number of meetings and the level of interest in TMS all made DVD 2026 a highly productive event for us.

A huge thank you to everyone who visited the TMS

16TH-17TH SEPTEMBER — DVD EVENT

stand, took the time to meet with us and shared their plans and requirements. We look forward to continuing those conversations and developing the opportunities that came from what was a fantastic few day's for TMS.

We go further, together.

NICK JOHNSON APPOINTED TO GREATER LINCOLNSHIRE DEFENCE & SECURITY ADVISORY PANEL

TMS Support Solutions is delighted to announce that Nick Johnson, Business Development Manager, has been appointed to the Greater Lincolnshire Defence & Security Advisory Panel.

The appointment recognises Nick's extensive defence experience and his ongoing involvement in supporting and developing the region's defence and security community.

Nick brings 24 years of British Army experience to the Panel, alongside his current role at TMS, where he works closely with organisations across the defence sector, developing relationships, identifying opportunities and supporting TMS's continued growth.

The Panel brings together expertise from across the defence and security sector, helping to strengthen collaboration and support the continued development of Greater Lincolnshire as a major UK defence hub.

The appointment further strengthens TMS's engagement with the Greater Lincolnshire defence community and provides an excellent opportunity to contribute to the continued growth and development of the sector.

Job Title: Technical Author

Job Summary

A Technical Author is responsible for the production of technical documentation. The ability to gather information first hand, interpret technical information, including design drawings and Standards, and present it as useful and informative technical documentation.

Responsibilities

- Production of technical documentation in accordance with instructions from a Project Manager and/or Senior Technical Author and in accordance with the procedures laid down in the Quality Manual
- On small projects to act as Customer Liaison/Project Manager with the responsibilities of that role
- Carrying out research, as necessary, to obtain source information for use in technical documentation
- Liaising with personnel in the other departments of the company during the production process
- Carrying out independent quality checks on other authors' work in accordance with the procedures in the Quality Manual
- To adhere to all security procedures
- To travel and work at customer's sites as required (this may include overseas travel)

Qualifications

- An excellent command of the English language
- Experience and/or technical qualifications appropriate to the types of projects in which they will be involved
- The ability to gather information first hand, interpret technical information, including design drawings, and applicable Standards and present it as useful and informative technical publications
- To be proactive in all aspects of the role with a desire to understand and follow the procedures and processes detailed in the Quality Manual
- Practical working knowledge of the MS Suite of Office products and other software packages that are used in the production of technical documentation
- Effective time management
- The ability to work well as part of a multi-skilled team
- The ability to communicate effectively with customers
- The ability to recognise further business opportunities for the company
- Sound commercial awareness

Job Benefits

- 25 Days annual leave (5 weeks)
- Christmas stand down
- All Bank Holidays off
- Company Pension Contributions
- Flexible working available
- Hybrid working available
- Free Eye test at local opticians
- Transferable skills advocates
- Personal development opportunities
- Multi role training on the job

Industry

- Defence & Space

Employment Type

- Full Time

Due to the nature of the work involved, any successful applicant must be UK-based. Any offer of employment will be subject to successful UK Security Check (SC) clearance.

CAPABILITY CORNER: DIGITAL TRANSFORMATION

Digital Transformation — Enabling Smarter, Faster, More Agile Support

In today's fast-paced, digitally driven world, efficient access to critical information is essential. Whether it's technical publications, user guides, or support documents, having the right information, at the right time, in the right place, is key to operational success.

At TMS Support Solutions Ltd, we help organisations embrace digital transformation through modern, web-based information management solutions, designed to make life easier for your teams and end-users.

So, what does that mean for you?

INSTANT ACCESS

to up-to-date documentation anytime, anywhere, no more outdated PDFs buried in inboxes or shared drives

USER-FRIENDLY WEB PORTALS

that present technical information clearly and intuitively, helping your teams and customers find what they need, when they need it

CONTROLLED UPDATES

ensuring that everyone is always working from the latest version, with a full audit trail of changes

SECURE, ROLE-BASED ACCESS

giving the right people the right information, while keeping sensitive data protected

Our web-based information portals take the hassle out of managing and distributing technical information, bringing essential documents into one secure, searchable platform.

Whether you're supporting complex equipment, delivering training material, or need to provide customer-facing information, TMS Support Solutions Ltd is here to support you, so you can focus on delivery.

UPCOMING EVENTS

OCT 13TH / 14TH WADDINGTON – AIR AND SPACE WARFARE CONFERENCE

WHY TMS?

TMS is a leading service provider, we are a trusted partner to the defence sector. Our strength lies in our ability to integrate seamlessly with client teams, combining deep technical knowledge with an understanding of the unique pressures and expectations of defence programmes.

- We deliver compliance and quality at every stage.
- We bring clarity and confidence to complex projects.
- We understand the importance of operational readiness and design every service to contribute directly to mission success.

When you work with TMS, you gain a partner who is proactive, reliable and committed to excellence. Our people are driven by the same values that underpin defence itself: professionalism, integrity and a relentless focus on outcomes.

We Go Further, Together!

QUOTE OF THE QUARTER

"Digital transformation is about more than technology. It's about transforming information into something people can trust, access and use."
